PREFACE

The format and content of the 1989-90 Data Book are virtually unchanged from last year. The 1987-88 , 1988-89 and 1989-90 Staff data use the same employee types and staff classifications as in previous years. However, the data were generated from the new Payroll System using slightly different definitions for FTE and departments such as Provincial Laboratory have been included in the 1987-88, 1988-89 and 1989-90 analyses. Consequently, care should be exercised when comparing Staff information for these years with the data for previous years.

The majority of the data bases which are sources of information for tables in the Data Book are maintained by other offices or departments and not Budget and Statistics. Consequently, these units are responsible for ensuring that their data are correct.

The School of Native Studies is treated as a faculty in all tables of the Data Book.

This publication is the only consolidated source of detailed longitudinal data about nearly all aspects of operations at the University of Alberta. It is widely distributed and extensively used both on and off campus. Any suggestions for improvements will be greatly appreciated.

I wish to acknowledge the thorough, insightful and diligent work of Mr. Gordon Fester, who assumed primary responsibility for preparation of the 1989-90 Data Book. Mr. Fester was ably assisted by other members in the Office of Budget and Statistics. The names of the Budget and Statistics staff members primarily responsible for preparing the tables and figures for each section are listed at the beginning of the respective sections.

DEFINITIONS

SESSIONS

Winter Session--the academic session of approximately eight months duration consisting of First Term (September to December) and Second Term (January to April).

Off-Campus--for students living outside the Edmonton area, courses are offered in the Off-Campus program on weekday evenings or on Saturdays. Such courses are offered in selected centres throughout central and northern Alberta.

Spring Session--the academic session of approximately six weeks duration consisting of a First Term and a Second Term from the first week of May to mid-June.

Summer Session--the academic session of approximately six weeks duration consisting of a First Term and a Second Term from the first week of July to mid-August.

STUDENTS

All student-related statistics are effective as of specific dates for each session (the last day of the First Term for the Spring and Summer Sessions):

Winter Session - 1 December
Spring Session - 19 May
Summer Session - 21 July

Undergraduate Students--students who are enrolled in a faculty other than the Faculty of Graduate Studies and Research. These students fall into one of two categories:

a. Full-time Students--students who are assessed full fees on the basis of registering in the equivalent of three or more half-courses in a given term.

b. Part-time Students--students who are assessed less than full fees on the basis of registering in the equivalent of one or two half-courses in a given term.

Graduate Students--students who have been admitted to the Faculty of Graduate Studies and Research. They are designated as full-time or part-time students by that faculty according to their workload of courses and/or research.

Special Students--students who have been permitted to register in one or more courses, but who are not officially enrolled for credit in a degree or diploma program at this or any other institution.

Visiting Students--bona fide undergraduate students of other universities or colleges, who have been permitted to register in one or more courses for transfer of credit to their own institutions, which have agreed in advance to such arrangements. (Visiting Graduate Students are called Exchange Students.)

Unclassified Students--adult students who are registered in selected credit courses but not committed to or admitted to a degree or diploma program.

Probationary Students--students who have been admitted (or permitted to continue) on a probationary basis, because their previous academic record is deficient in some respect, below the standard ordinarily required, or difficult to assess.

Provisional Candidate for a Doctoral Degree--all Ph.D. and combined M.D.-Ph.D. students are first admitted as Provisional Candidates, and reclassified as Candidates only when certain requirements relevant to the degree have been met.

Candidate for a Master's Degree
Category A: a graduate of a four-year degree program who is continuing in the same field (equivalent of an Honors degree or degree with specialization at the University of Alberta).
Category B: a graduate of a four-year degree program who is specializing for the first time but does not require a qualifying year.

Qualifying Graduate Students--students whose records are not consistent with full admission into the Faculty of Graduate Studies and Research. Normally, these are individuals who either hold a three-year Bachelor's degree in the appropriate field or hold a four-year degree but are seeking admission into a completely new field of studies.

Degree--the title officially conferred upon a student for the successful completion of a given curriculum or program.

Diploma--a certificate awarded to a student upon successful completion of a program of studies. A diploma is distinct from a degree in that it does not affect the title that the individual may properly assume.

Post-Graduate Diploma--a certificate awarded to a student upon successful completion of a program of studies in the Faculty of Graduate Studies and Research.

Enrolment--a full-time student enrolled in a program offered by a faculty generates one full-time enrolment for that faculty; a part-time student generates one part-time enrolment.

COURSES

All course-related statistics are effective as of specific dates for each term in each session (the last day of each term for the Spring and Summer Sessions):

Winter Session - 1 December; 1 April
Spring Session - 19 May; 9 June
Summer Session - 21 July; 11 August

Course--organized subject matter in which instruction is offered within a given period of time. Credit towards graduation or certification is given for "credit" courses. ("Non-credit" courses carry no such commitment on the part of the University.) Section types are lecture, seminar, laboratory (or some combination of these), independent study, clinical experience, research and/or development project, design project, internship, practicum, field school, and field trip. A course is counted in each term in which it is taught.

Course Level--assigned to a course as part of the course designation, this number indicates the level of academic sophistication or the level of a student to whom a course is primarily directed.

Seminar--instructional activity distinguished by relatively small registration and considerable group discussion. Some lecture courses may involve seminar sections, where the lecture group is divided into smaller groups.

Laboratory (LAB)--instructional activity which requires special purpose equipment and/or student experimentation or observation.

Course Registration--one student registered in one course. A student registered in a half-course is counted as one registration; a student registered in a full-course is counted as two registrations, one for each term. (Compare "Enrolment": a student enrols in a degree program; he or she registers in courses.)

Section of a Course--a group of students which meets together for one of the above types of instructional activity. Large courses are generally subdivided into two or more sections which meet at different times and/or different places. A single course may have different sections defined for different types of instructional activities (for example, lecture and laboratory sections.)

Average Section Size--the average class size being supervised by teaching staff. The calculation is:

$$\text{Average Section Size} = \frac{\text{Total Number of Course Registrations}}{\text{Total Number of Sections}}$$

Average Section Sizes are calculated for lectures, seminars and laboratories only.

Weekly Student Hour (WSH)--the unit of measure which represents instruction given to students during each week for a given term.

WSH = the number of approved hours of instruction per week of a section of a course
×
the number of students registered in the section.

Weekly Contact Hour (WCH)--the unit of measure which represents the time spent by teaching staff instructing courses each week for a given term.
WCH = the number of approved hours of instruction per week of a section of a course
×
the number of instructors present in the section.

Note: The WSH-WCH for each course are assigned to the teaching department even though the course may have been taught by a staff member in another department. This means that ratios such as WSH/FTE faculty may be in slight error.

a. Lecture Sections--although two instructional staff members may share lecture responsibilities for a section of a course during a term, only one can lecture at any one time, so "one instructor" normally is used in the calculation of WCH for those sections.

b. Seminar Sections--seminar sections are often subdivided into smaller discussion groups, and because two or more instructors are often jointly involved in the same seminar, the WCH calculation normally allows for the actual number of staff.

c. Laboratory Sections--for similar reasons, the WCH calculation for laboratory sections is handled in the same manner as the WCH calculation for seminars.

d. Lecture-Laboratory Sections (LCL)--when sections are defined as LCL, and no further breakdown is specified, the WSH and WCH are arbitrarily split into 2/3 lecture and 1/3 laboratory.

e. Laboratory-Lecture Sections (LBL)--when sections are defined as LBL, and no further breakdown is specified, the WSH and WCH are arbitrarily split into 1/3 lecture and 2/3 laboratory.

STAFF

All staff-related statistics for the academic year are determined as of the first term census period (December for the years up to 1988-89 and October thereafter).

Full-Time Equivalent (FTE)--the determination of full-time academic workload in a particular department, and the conversion of part-time duties into FTE, are the responsibilities of the department chairman.

Caution: Because changes may occur occasionally in methods of classification and calculations (e.g., means of calculating FTE Staff), readers are cautioned that some data may not be directly comparable from year to year.

Academic Staff

a. Teaching Faculty:
   1. all persons whose full-time employment is governed by the Board--AASUA Agreement--Faculty. Such persons (Full-Time Regular Faculty) have either tenure or probationary appointments which can lead to tenure. This classification includes Professors, Associate Professors, Assistant Professors and Lecturers.
   2. all persons whose employment is governed by the Rules and Regulations Governing the Employment of Full-Time Temporary Academic Staff. Such persons have appointments with definite terms.
   3. all persons whose employment is governed by the Rules and Regulations Governing the Employment of Part-time Academic Staff. Such persons usually have term appointments, but under certain circumstances tenure may be involved.

b. Faculty Service Officers (FSO)--all persons whose full-time employment is governed by the Board--AASUA Agreement--Faculty Service Officers. Such persons have either continuing appointments or probationary appointments leading to continuing appointments.

c. Administrative and Professional Officers (APO)--all persons whose full-time employment is governed by the Board--AASUA Agreement--Administrative and Professional Officers. Such persons have either continuing appointments or probationary appointments leading to continuing appointments.

d. Librarians--all persons whose full-time employment is governed by the Board--AASUA Agreement--Librarians. Such persons have either tenure or probationary appointments which can lead to tenure.

   Note: Faculty Service Officers, Administrative and Professional Officers, and Librarians may be employed under the full-time temporary or part-time regulations above. Student Counsellors are covered under the Teaching Faculty regulations (see a. above).

Academic Trust Staff--all those persons employed to assist and/or to collaborate with the principal researcher on a specific research project. They are not governed by any formal University of Alberta regulations. This classification includes Research Associates, Research Assistants and Post-Doctoral Fellows.

Graduate Assistants (GA)--all those persons enrolled in the Faculty of Graduate Studies and Research who are proceeding with their graduate programs and paid to carry out either of the following functions:

a. **Teaching (GTA)**--teaching duties which include the preparation of teaching or laboratory assignments, instruction in laboratories or the equivalent, and the grading of essay assignments or laboratory reports;

b. **Research (GRA)**--research duties consisting of working for the department or a staff member of a research project(s), the results of which may or may not be used in their theses.

A full-time GA is a full-time graduate student holding a Graduate Assistantship which requires twelve hours per week of teaching or research duties. GAs with smaller workloads have a reduced FTE.

Non-Academic Staff

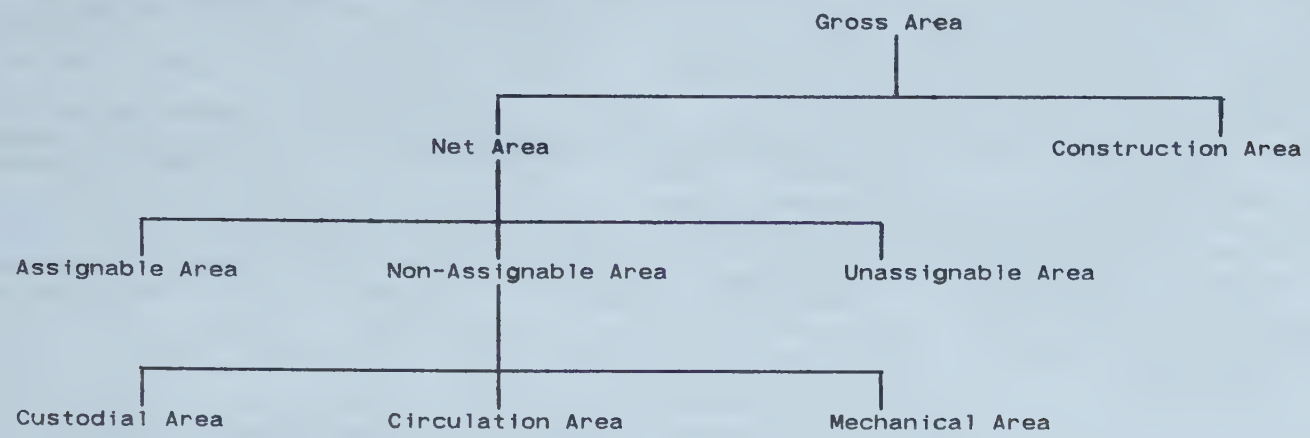
a. Bargaining Unit Employees--all employees for whom the Non-Academic Staff Association of the University of Alberta is the certified bargaining agent and who are included in one of the following categories:
   1. Full-Time Regular Monthly Salaried--such persons occupy an established position and work 35, 37.5 or 40 hours per week.
   2. Part-Time Regular Monthly Salaried--such persons occupy an established position and may work from a minimum of 15 hours per week to a maximum of 25 hours per week.
   3. Recurring Term--such persons work on a full-time or part-time basis for two or more specified terms in the same position. Each term is specified for more than eight months and fewer than ten months.
   4. Term--such persons work a regular weekly schedule on a full-time or part-time basis for a specified term for more than three months and fewer than twelve months.
   5. Hourly--such persons are paid an hourly wage rate and work a minimum of 60 hours per month for a minimum of two consecutive months. Hourly positions are not established positions and are not continuing in nature.

b. Non-Bargaining Unit Employees--all employees who are not represented by a certified bargaining agent; they are included in one of the following categories:
   1. Full-Time Equivalent Trust--such persons are employed on a full-time regular basis for one year or more and are paid from Trust Funds.
   2. Part-Time Equivalent Trust--such persons are employed on a part-time or indeterminate basis for less than one year and are paid from Trust Funds.
   3. Non-Academic Split Appointments--such persons are employed on a full-time or part-time basis and are paid jointly from Operating and Trust Funds.
   4. Confidential Exclusions--such persons are employed on a full-time regular basis and are paid from Operating Funds.

SPACE

Gross Area--the sum of the floor areas within the outside weatherface of exterior walls for all stories or areas which have floor surfaces and are heated. This category excludes open courts and light wells, portions of upper floors eliminated by rooms or lobbies which rise above single floor ceiling height, or floored surfaces with less than two metres clear head room that cannot be properly designated as assignable, mechanical, circulation or custodial areas.

All other categories of building space are contained within Gross Area, as indicated by the figure:



Construction Area--that portion of the Gross Area which cannot be put to use because of the presence of structural features of the building including exterior walls, fire walls, permanent partitions and usable areas in attics, basements or comparable portions of a building.

Net Area--the sum of individual floor areas included between the interior surfaces of walls and partitions of all rooms and other definable spaces. Net Area includes Custodial, Circulation, Mechanical and Unassignable Areas as well as Assignable Areas.

Assignable Area--the sum of all areas on all floors of a building assigned to, or available for assignment to an occupant. It includes the following types of space: offices, classrooms, laboratories, seminar and conference rooms, libraries, file rooms, storage rooms and special purpose spaces.

Unassignable Area--that portion of the Net Area unassigned at the time of a facilities inventory because of the condition of the space. Unassignable Area includes inactive, alteration or conversion and unfinished areas.

Non-Assignable Area--the sum of all Net Areas not assigned to a functional or assignable category at the time of a facilities inventory or audit because of the nature of the space. Non-Assignable Area is the sum of Custodial, Circulation and Mechanical Areas.

a. Custodial Area--the sum of those areas on all floors of a building which are used for building protection, care, maintenance storerooms, lunch rooms, etc.

b. Circulation Area--that portion of the Net Area which is required for physical access to a sub-division of space including corridors, "phantom" corridors in large unpartitioned areas where public access is involved, elevator shafts, stairs and stair halls, lobbies, vestibules, public washrooms, but excluding aisles which are normally used for circulation within offices or working areas.

c. Mechanical Area--that portion of the Net Area designed to house mechanical equipment, utility services, and non-private toilet facilities including air duct shafts, boiler rooms, fixed mechanical, telephone and electrical equipment rooms and fan rooms.

FINANCES

Fiscal Year--is the period for which the University regularly prepares financial statements - 1 April to 31 March of the following year.

Operating Fund--is a set of accounts for the routine operations of the University financed by government grants, student fees and other general revenues. The Operating Fund includes current assets, current liabilities, appropriated surplus (reserves) and unappropriated surplus.

Operating Expenditures--are the costs for goods delivered or services rendered, whether paid or unpaid, attributable to the routine operations of the period.

Operating Budget--is the budget for the routine operations of the University. The Operating Budget, as it is presented in this Data Book, is not directly comparable to Operating Expenditures because "central" budget contingencies are not allocated to departments.

Conditional Fund--is a set of accounts financed by government grants to implement new programs for a specified term. Viable programs may become part of the Operating Fund in subsequent years.

Ancillary Services Fund--is a set of accounts for the routine operations of Ancillary departments. Ancillary departments provide goods and services to the University community and are expected to operate on a break-even basis. These departments are assessed most overhead costs associated with their operations, such as occupancy, central administration, payments of principal and interest on all long-term debts, and provisions for equipment replacement or extraodinary maintenance reserves.

Sponsored Research Fund--comprises those funds provided principally by agencies external to the University and individuals, specifically for the purpose of financing research. Included are both research grants and contracts, which are defined below, but not all expenditures for research at the University, since substantial amounts are disbursed from Operating Budgets.

Special Purpose Fund--comprises funds provided for purposes other than research or endowment. Included are community service projects, scholarships, non-research consulting, general grants-in-aid to departments, and miscellaneous receipts.

Endowments--are donations made to the University with the intent that the amount would be maintained intact (generally) and invested. The income thereby generated would be used to support the project or purpose stipulated by the donor.

Capital Fund--is a set of accounts for the costs of fixed assets (including capital assets initially charged to some other fund) financed by government grants, donations, other capital revenues and borrowed funds. Land, buildings (including buildings under construction), equipment and furnishings costing over $500, and long-term acquisitions are capitalized at cost. The Capital Fund includes capital receivables, fixed assets, long-term debt, capitalized expenditures and unexpended funds.

Consumer Price Index (CPI)--is compiled by the Alberta Bureau of Statistics. This CPI is an annual index for Edmonton with 1981 as the base. It is an all-items index averaged from the Edmonton indices for the following items: food; housing; clothing; transportation; health and personal care; recreation; education and reading; tobacco and alcohol.

1985: 124.2 (3.2)* 1986: 128.3 (3.3) 1987: 133.7 (4.2) 1988: 137.3 (2.7) 1989: 143.5 (4.5)

* Percentage increase over previous year.

RESEARCH

Research Grants--the principal purpose of a research grant is to support research of particular interest or relevance to an individual or a department. It is characterized by a minimum of restrictive conditions and formal contractual obligations, and is somewhat flexible in time and allocation of resources. Grants are usually awarded either to individuals (or groups of individuals) or to institutions on their behalf, in response to individual or group initiative. The general terms and conditions established for such awards are not negotiable. Research grants may be categorized as research grants, personnel awards and sub-grants.

Research Contracts--the principal purpose of a research contract is to purchase specific research services or expertise. A research contract is characterized by specific terms of reference--it is time-limited; it is subject to review and audit; it reserves for the awarding agency specific rights as to the title, use and publication of the report. All items in a contract are negotiable, subject only to the outside limits established by University and government policies. An overhead charge is usually applied by the University.

Personnel Awards--are funds received to pay salaries or stipends to students or researchers. These accounts are administered by the University.

Sub-Grants--are internally administered grant funds. These grants are financed by endowments, external grants or Operating Fund allocations.

Central Research Fund (CRF)--a fund, under the authority of the Vice-President (Research), whose purpose is to contribute to the growth of The University of Alberta as a research university of international stature. It is comprised of five components: a general fund, an NSERC fund, a SSHRC fund, a medical fund, and an AHFMR fund. The University Research Awards Committee administers the awards on the basis of individual merit.

LIBRARY

Full-Time Equivalent Staff--is based on annual employment figures, and will not tie to 1 December census figures shown elsewhere in the Data Book.

Books and Book Equivalent Items--expense includes microform, audio visual kits and periodical backfiles as distinct from subscriptions.

Periodicals and Serials--covers extended procurement rather than one-time purchase.

Library Holdings and Net Acquisitions --"volumes" include book, serial and periodical volumes. Each microform unit is an equivalent volume.

UNIVERSITY COMPUTING SYSTEMS

CPU--is the central processing unit of the computer.

MTS--stands for Michigan Terminal System and is the operating system used by University Computing Systems on the primary academic computer at the University of Alberta. MTS usage signifies use of this Computing Systems computer.

Prime Time--is from 8:00 am to 5:00 pm weekdays.

STAFF

The tables in this section have been compiled from the following Payroll Master and Budget Data Bases:
1985-86 to 1988-89 data as of December; and
1989-90 data as of October.

Note: The 1987-88, 1988-89 and 1989-90 Staff data contain the same employee types and staff classifications used in previous years. However, the data were generated from the new Payroll System, using slightly different definitions for FTE and departments such as Provincial Laboratory have been included in the 1987-88, 1988-89 and 1989-90 analyses. Consequently, care should be exercised when comparing Staff information with data of previous years.

The budgeted staff information does not include staff paid from Conditional Grants. The Associate Deans in the Faculty of Graduate Studies and Research are included in their home departments.

This section was complied by:

FINANCES

The tables in this section have been derived from the Financial Statements, the General Ledger and the Capital and Operating Budgets. More detailed information is available from those sources. The budget tables, "Budgeted Operating Revenues and Expenses" and "Net Operating Budget," have been changed so the most recent year is 1990-91 rather than 1989-90.

This section was compiled by:
D. Quigg -- Tables 6.1 to 6.6.
W. Bryan -- Figures 6.1.1 and 6.3.1.

Notes: A review of the methods used to calculate the data in the report has been made by the Library. As a result, collection statistics have been revised.

(1) Staff figures include positions supported by conditional grants and employment subsidy programs.
(2) In 1986-87, 82,756 volumes in Faculte Saint-Jean Library were added to these statistics.
(3) In 1986-87, 78,735 microforms in Faculte Saint-Jean Library and John A. Weir Memorial Law Library, were added to these statistics.
(4) Serial subscriptions include periodicals and standing orders.
(5) Loans made by John W. Scott Health Sciences Library, the John A. Weir Memorial Law Library and loans made to Alberta Provincial Government libraries have been included for the first time in 1987-88.
(6) Items borrowed and photocopies received from other libraries.
